REGIONAL RESEARCH INSTITUTE TIMELINE

The Regional Research Institute opened on September 1, 1965. Professor William H. Miernyk, a regional economist trained at Harvard, came to West Virginia University as founding Director. His pioneering research on input-output modeling rapidly brought the Institute international prominence in regional economics and the new multidisciplinary field of regional science. The orientation he established is at the heart of the Institute today:

- The Regional Research Institute exists for scholarly research. Scholars define the research projects, and scholars evaluate the proposals and results. The overall objective is to increase knowledge through publication of journal articles and books.
- Graduate students are an integral part of the Institute. As their educations progress, so do their roles on research projects. They learn research skills, conduct and publish research, and present papers at conferences in the U.S. and worldwide.
- The scope of the Institute extends beyond the economic and social problems of Appalachia to similar regions elsewhere. It incorporates an enduring focus on quantitative methods for studying regions and evaluating policy directions.
- The Institute encourages and nurtures international and multidisciplinary research. It organizes conferences and seminars, initiates research activities, creates research opportunities abroad, and hosts visiting scholars.

For 50 years, the Regional Research Institute has helped scholars do research. For numerous individuals, both at West Virginia University and elsewhere, it has provided crucial encouragement, stimulation, and opportunities. Its programs involve faculty members, graduate students, and an extensive network of scholars in the United States and abroad.

LOCATIONS

- RRI had temporary quarters in the Wise Library and the Willey Street Annex, 1965-1976
- RRI moved to the orange brick house at 511 North High Street (the Glasscock House), 1976-2007
- RRI moved to the University Services Center (Prete), Evansdale campus, May, 2007- June, 2009
- RRI moved to the 5th floor of the Chestnut Ridge Research Building, Evansdale campus, July 2009-

DIRECTORS

- William H. Miernyk, 1965-1983
- Robert Saunders, Acting Director, 1969-1970

RESEARCH ASSISTANT PROFESSORS

Two faculty positions were created at the RRI in 1985. They are non-tenure track, two-to-three year appointments for recent Ph.D.s capable of becoming leading scholars. The research assistant professors conduct their own research, participate in joining research projects, and generally teach one course per year.

- Paul M. Beaumont, 1985-1987
- Robert Walker, 1985-1987
- Mary Beth Pudup, 1986-1989
- Philip Shapira, 1988-1990
- Carla Dickstein, 1988-1990
- Stephen Fournier, 1991-1993
- Terance Rephann, 1993-1994
- Stephan Weiler, 1994-1996
- Cynthia Rogers, 1994-1997

- Emily Talen, 1995-1998
- Attila Varga, 1997-1998
- Oleg Smirnov, 1998
- Ge Lin, 2000-2005
- Shaoming Cheng, 2006-2008
- Randall Rosenberger, 2000-2002
- Gianfranco Piras, 2010-2014
- Péter Járosi, 2015-

RESEARCH ASSOCIATES

One faculty-equivalent position was created in 2005. These individuals are non-tenure track, three-year appointments for more senior Ph.D. researchers capable of becoming leading scholars. The research associates conduct their own research, participate in RRI research projects, and contribute to instruction by committee participation, teaching course modules, and presenting guest lectures and seminars.

Hodjat Ghadimi, 2005-2010

RESEARCH ASSOCIATE PROFESSOR

This is a tenured, joint position; 50 percent of the appointment is with the RRI, 25 percent of the appointment is with Agricultural and Resource Economics and 25 percent of the appointment is with Economics.

AWARDS

The awards were established at the Institute's 25th Anniversary celebration in honor of Professor Emeritus William Miernyk who directed the Institute from its establishment in 1965 until he retired in 1983.

The RRI Outstanding Alumni Scholar Award

- Frank Giarratani, 1990
- Douglas Brown, 1993
- John Blair, 1995
- Attila Varga, 2011

The Miernyk Award for Career Scholarly Achievement

- Patrick C. Mann, 1990
- Ronald L. Lewis, 1995
- Walter C. Labys, 2000
- Peter V. Schaeffer, 2008
- Trevor M. Harris, 2013
- Kenneth C. Martis, 2014

The William H. Miernyk Research Excellence Award

This award was established in 2005. The Miernyk Medal is awarded annually at the Southern Regional Science Association Meeting to the author of the best solely-authored conference paper written and presented by an assistant professor. A monetary stipend accompanies the award.

- Alexandra Tsvetkova, 2017

ADDITIONAL PROGRAMS/PROJECTS

- RRI became the representative of the State of West Virginia in the Federal-State Cooperative Program for Population Estimates and Projections, 1996-2007
- RRI housed and published the *International Regional Science Review*, 1986-1997

- RRI housed and published more than 100 copies of SpaceStat software, by Luc Anselin, 1996-1997
- RRI housed and published the *Journal of Appalachian Studies*, 1996-2001
- The National Science Foundation funded “The Research Experiences for Undergraduates (REU) Program,” 1993-2001. The RRI was selected as the NSF's first Research Experiences for Undergraduates Site in regional science, an interdisciplinary field that links economics, geography, planning, and other social sciences. From 1994-2001, over 55 outstanding students from around the country, including West Virginia University, spent their junior/senior year as Undergraduate Research Fellows at the Regional Research Institute. Many fulfilled the program's goal of learning research skills, undertaking a research project with a personal faculty mentor, and furthering their education by attending graduate school and beyond.
- **The Web Book of Regional Science** was initiated in 2001- present. It brings together on one website comprehensive descriptions of many of the basic concepts, analytical tools and policy issues important to regional science. It is equivalent to well over fifteen hundred pages of traditional text. Researchers from more than 90 countries visit the site during a typical year. The Web Book logs more than 11 million hits per year, which is indicative of its immense popularity.
- **Host of the Regional Science Association, International (RSAI)** website, 2002-2008
- **Host of the Southern Regional Science Association (SRSA)** website, 2002-2011

RESEARCH FELLOWS

- **Post-Doctoral Research Fellow**, Walter Schwarm, 2004-2006
- **Post-Doctoral RRI Graduate Research Fellow**, Christa D. Jensen, 2006-2012
- **Post-Doctoral Research Fellow**, Junbo Yu, 2008-2010
- **Post-Doctoral Research Fellow**, Mulugeta S. Kahsai, 2009-2013
- **Post-Doctoral Research Fellow**, Xueting Zhao, 2014-2016

FACULTY DEVELOPMENT PROGRAM (FRA), 1988-1998

Through its Faculty Research Associate program, the Regional Research Institute provided startup support for scholarly research on the economic and social development of lagging regions, such as (but not limited to) Appalachia in the United States. The awards consisted of in-kind support in the form of graduate research assistance (if required), up to \$500 in travel support, and miscellaneous assistance by Institute staff with data entry, library searches,

computer training, proposal writing, manuscript critiques, and other research tasks. No direct salary or equipment support was provided.

Proposals were judged by a committee of Institute Faculty and Faculty Research Associates, chaired by Dr. William Miller, Associate Provost for Research and Economic Development. All proposals were sent to three external and three internal reviewers. The ranking of proposals was based on evaluation criteria used by the National Science Foundation: the capability of the researcher, the soundness of the proposed approach, recent research performance, the likelihood that the line of research will lead to fundamental advances or have substantial impact on the field, and the likelihood that the research could assist in the solution of societal problems (in this case, related to regional development). Additional considerations were the likelihood of published research and external funding, the project's potential contribution to the faculty member's development, the significance of the experience to be gained by the research assistant, and the project's contribution to strengthening the faculty member's unit, the Institute, and the University. Priority was given to proposals from junior faculty.

The Faculty Research Associate program drew 32 faculty from six colleges and eleven departments, mostly in the social sciences. The Faculty Associates formed an interdisciplinary scholarly community and participated in an active program of seminars, workshops, and conferences organized by the Regional Research Institute. Below are funded FRAs and their project titles:

1997-1998

- *Regional Manufacturing Employment Change: A Spatial Analysis of Growing and Lagging Local Areas in Japan*, Robert Hanham, Geology and Geography

1996-1997

- *Defining Regions for Epidemiologic Studies of Uneven Development and Cardiovascular Disease*, Elizabeth Barnett, Community Medicine; Gregory Elmes, Geology and Geography
- *Analyzing the Effects of Access to Obstetric Care in Rural Areas on Birth Outcomes by Use of Spatial Econometrics and Geographic Information Systems*, Emily Talen, Regional Research Institute; Laura Blanciforti, NIOSH
- *The Calcasieu River, 1910-1940: An Environmental and Political Study of a Louisiana Delta Region*, Michal McMahon, History
- *Marketing and Production Networks in Rural Appalachia: Linking Gender, Space and Place*, Ann Oberhauser, Geology & Geography
- *Civic Participation and Sustainable Communities*, Rachel Tompkins, Extension

1995-1996

- *Measuring the Influence of Race Relations on the Migration of African-Americans in the U.S., 1955-1990*, Brian Cushing, Economics

- *Sources of Dissonance between Research and Practice in Regional Development Policy*, Scott Loveridge, Community and Economic Development
- *The Regional Aspects of Political Party Control of Congressional Redistricting: 1790s-1990s*, Kenneth C. Martis, Geology and Geography
- *Business Cycles and Economic Performance in Metropolitan and Nonmetropolitan Areas*, F. Carson Mencken, Sociology

1994-1995

- *Shifting Household Strategies: A Comparative Study of Livelihood Diversification in Southern Ghana*, Kobena Hanson and Ann Oberhauser, Geology & Geography
- *Population Aging and Education Spending: Evidence from Elderly Migration*, Mehmet Tosun, Bureau of Business & Economic Research
- *Homeland Security Challenged from a Regional Perspective*, Brian J. Gerber, Public Administration

SEED GRANTS (initiated by Randy Jackson, 2003-2010)

Two seed-grants provided to tenured or tenure track WVU faculty with interests in any aspect of regional research and analysis, including but not limited to studies of economy, land-use, environment, energy, industry, and socio-economic welfare. The award supports a graduate research assistant for the academic year. Preference is given to projects that have the greatest potential for future external funding. Recipients become RRI Faculty Research Associates. Seed grants listed by academic year include the following:

2003

- *Apportionment Formula and Strategic Competition*, Santiago Pinto, Economics
- *Location-Specific Amenities, Equilibrium, and Constraints on Location Choices*, Brian Cushing, Economics

2004

- *Factors Influencing Venture Capital Availability in West Virginia*, David Hughes, Extension
- *Environmental Changes caused by Beaver and Deer in Canaan Valley, West Virginia*, James T. Anderson, Division of Forestry

2005

- *US Organic Regional Clusters: A National Study*, Cheryl Brown, Agricultural & Resource Economics
- *Nursing Home Quality of Care in Appalachia*, Mary Carter, Center on Aging

2006

- *Institutional Factors in Regional Economic Growth: An Austrian Model*, Odd Stalebrink
- *An Analysis of the Impact of Knowledge-based Activities in Rural Economics*, Tesfa Gebremedhin, Agricultural & Resource Economics

2007

- *West Virginia/Central Appalachian Land Use Status and Trends Project*, Charles Yuill, Resource Management
- *Proximity to Coal Mining and Health*, Michael Hendryx, Community Medicine

2008

- *Linking Tourism Resources and Local Economic Development: A Spatial Analysis in West Virginia*, Jinyang Deng, Division of Forestry

2010

- *Sustainable Development Planning in Energy Rich Regions: Estimating Regional Capital Assets using Remote Sensing and GIS*, Hodjat Ghadimi, Design & Landscape Architecture, Trevor Harris & Tim Warner, Geology & Geography
- *The Effect of Alcohol Retail Distribution and Taxes on Newborn Infant Health: Long-Term Consequences for Regional Development*, Tami Gurley-Calvez, Bureau of Business & Economic Research
